Please review the following statements and identify that you have read them by signing below.

To better serve the scholarly community, a digital copy of your work will be made available via [OxyScholar](#). OxyScholar is our web-based, open access platform for digital scholarly work created by Occidental College for the Occidental community. It is a permanent archive.

By placing your work in OxyScholar, all materials are searchable via Google Scholar and other search engines. Materials that are located in OxyScholar are freely accessible to the world; however, your copyright or Creative Commons License protects against unauthorized use of the content. It is your responsibility to select your preferred Creative Commons License. More information on Creative Commons Licenses can be found at [creativecommons.org/about/license/](http://creativecommons.org/about/license/).

Some departments may choose to restrict access to the work of their students because of continuing research. In such cases the project will not be posted in OxyScholar, and content will only be accessible by individuals based upon departmental guidelines.

I have read the above statement and **agree** to make my student work available to the Occidental College community and to the larger scholarly community in our OxyScholar digital archive or its successor technology.
